Headwaters is committed to meeting its current and ongoing obligations under the Ontario Human Rights Code respecting non-discrimination.

Headwaters understands that obligations under the AODA and its accessibility standards do not substitute or limit its obligations under the Ontario Human Rights Code or obligations to people with disabilities under any other law.

Headwaters is committed to excellence in serving and providing goods, services or facilities to all customers including people with disabilities.

Our accessible customer service policies are consistent with the principles of independence, dignity, integration, and equality of opportunity for people with disabilities.

Procedure

Training

We are committed to training all staff and volunteers in accessible customer service, other Ontario’s accessibility standards and aspects of the Ontario Human Rights Code that relate to persons with disabilities.

In addition, we will train:

- a) all persons who participate in developing the organization’s policies; and
- b) all other persons who provide goods, services, or facilities on behalf of the organization

Training of our employees and volunteers on accessibility relates to their specific roles. Training includes:

- Purpose of the *Accessibility for Ontarians with Disabilities Act, 2005* and the requirements of the Customer Service Standards
- Our policies related to the Customer Service Standards
- How to interact and communicate with people with various types of disabilities
- How to interact with people with disabilities who use an assistive device or require the assistance of a service animal or a support person
- How to use the equipment or devices available on-site or otherwise that may help with providing goods, services, or facilities to people with disabilities.

These include:

1. Wheelchairs, canes and/or walkers
2. TTY phone lines
3. Large print materials

We train every person as soon as practicable after being hired and provide training in respect of any changes to the policies. We maintain records of the training provided including the dates on which the training was provided and the number of individuals to whom it was provided.

Assistive Devices

People with disabilities may use their personal assistive devices when accessing our goods, services, or facilities.

In cases where the assistive device presents a significant and unavoidable health or safety concern or may not be permitted for other reasons, other measures will be used to ensure the person with a disability can access our goods, services, or facilities e.g., support person.

We ensure that our staff are trained and familiar with various assistive devices we have on site or that we provide that may be used by customers with disabilities while accessing our goods, services, or facilities.

Communication

We communicate with people with disabilities in ways that consider their disability. This may include the following:

- Large print

Communication supports may include, but are not limited to, captioning, alternative and augmentative communication supports, plain language, sign language and other supports that facilitate effective communications.

We will work with the person with disabilities to determine what method of communication works for them.

Service Animals

We welcome people with disabilities and their service animals. Service animals are allowed on the parts of our premises that are open to the public and third parties.

When we cannot easily identify that an animal is a service animal, our staff may ask for documentation (template, letter, or form) from a regulated health professional that confirms the person needs the service animal for reasons relating to their disability.

A service animal can be easily identified through visual indicators, such as when it wears a harness or a vest, or when it helps the person perform certain tasks.

A regulated health professional is defined as a member of one of the following colleges:

- College of Audiologists and Speech-Language Pathologists of Ontario
- College of Chiropractors of Ontario

If service animals are prohibited by another law, we will do the following to ensure people with disabilities can access our goods, services, or facilities:

- Explain why the animal is excluded
- Discuss with the customer another way of providing goods, services, or facilities

Service animals are restricted from entering the following areas:

- Food preparation and food storage areas
- Medication preparation or storage areas
- Clean or sterile supply storage areas
- Isolation rooms
- Restricted access areas such as procedure and treatment rooms

In cases, where the animal is excluded by law from the premises (*Dog Owner's Liability Act, Ontario; The Health Protection and Promotion Act, Ontario Regulation 56 Section 60*), Headwaters will ensure that other measures are available to enable the person with the disability.

Support Persons

A person with a disability who is accompanied by a support person will be allowed to have that person accompany them on our premises.

In certain cases, Headwaters might require a person with a disability to be accompanied by a support person for the health or safety reasons of:

- The person with a disability
- Others on the premises

Before deciding, Headwaters will:

- Consult with the person with a disability to understand their needs
- Consider health or safety reasons based on available evidence
- Determine if there is no other reasonable way to protect the health or safety of the person or others on the premises

If Headwaters determines that a support person is required, we will waive the admission fee or fare (if applicable) for the support person.

Notice of Temporary Disruption

If there is a disruption of a particular facility or service used to allow a person with a disability to access the goods or service, Headwaters will give notice of the disruption to the public, by posting the reason for the disruption, the anticipated duration of the disruption and describe alternative facilities or services that may be available.
